-Direction:

Discussion on how the committee moves forward. There was a consensus that the committee, instead of chasing the various boards and committees for information then pass it along to the BOS we change the direction to from time to time remind the boards of their roles as outlined by the Master Plan and ask the various boards to report to the BOS directly. This was a very loose idea and the Committee will in future meeting refine how we move forward.

Discussion on how often we meet and when. It was decided that we only necessary to meet every three months or so. Next meeting was set tentatively for 5/17/25 at 4:00 pm.

Adjournment at 7:30 pm Motioned by Guy, 2nd by Miranda approved by consensus.
