**New Business:**

The Commission has received a request from the Building Commissioner to approve a demolition permit for 86 Ingleside Drive. The building is only defined as "historic" because it is 70 years old. The original structure has already been demolished and rebuilt to the present structure. Mr. O'Neil and Ms. Corbosiero have toured the building and Mr. O'Neil has removed doors that belonged to Marchmont Castle, and are now being stored at the Winchendon History and Cultural Center. The existing barn and garage will remain intact. Commission members can research the project on the Ingleside Facebook page. Ms. G. Harrington would like to speak to a previous resident to ensure there are no other significant historical items on premises. The vote to demolish will be postponed until Tuesday, February 16, 2021, when a special meeting will be scheduled.
