

December 14, 2023

James A. McQuade, Section Chief
Solid Waste Management Program
MassDEP Central Regional Office
8 New Bond Street
Worcester, Massachusetts 01606

Subject: Monthly Reporting – November 2023
Permit No. X283688
Former Mabardy Landfill
River Street in Winchendon, Massachusetts
CEC Project No: 306-000

Dear Mr. McQuade:

Civil & Environmental Consultants, Inc. (CEC) has prepared this letter on behalf of W.L. French to fulfill the monthly reporting and recordkeeping requirements at the above referenced landfill (hereby referred to as the “Site”). This submittal was prepared in accordance with Section E of the Specific Permit Conditions as described in the Permit Number X283688 (Corrective Action Design (CAD) permit approval) in order to document tonnage received in the past month and any operational problems or deficiencies encountered in the Project.

1.0 MATERIAL ACCEPTED AND REMAINING CAPACITY

The summary table below presents the tonnage received during November 2023, cumulative tonnage received to date, and remaining capacity, in tons:

a.	Permitted Capacity	1,434,500 tons	See note 1
b.	Tonnage Received (November 2023)	27,052.38 tons	See note 2
c.	Total Tonnage Received	937,488.03 tons	See note 3
d.	Capacity Remaining (as of 10/31/2023)	497,011.97 tons	= ‘a’ – ‘c’

Notes:

1. The permitted capacity is based on the October 20, 2023 Major Modification Permit
2. Tonnage received for November 2023 is based on scale house records for the month of November
3. Total tonnage received at the Site is based on scale house records as of November 30, 2023

As presented in the summary above, 27,052.38 tons (~14,238 cubic yards) were received by the facility in November 2023 which results in 497,011.97 tons (~261,585 cubic yards) remaining.

2.0 OPERATIONAL MODIFICATIONS TO DATE

W.L. French began to import approved soils for shaping and grading at the Site on January 19, 2021 in accordance with the CAD permit approval issued on September 23, 2020.

Following the detection of groundwater at a higher elevation than the bottom of the north stormwater basin (as designed in the initial CAD permit application), a Major Permit Modification (BWP SW 11) was prepared and submitted to MassDEP on September 6, 2022, which presented details of the stormwater redesign. The basin design was approved for an amended Order of Conditions by the Winchendon Conservation Commission at a public hearing on June 9, 2022.

The MassDEP issued a BWP SW22 Minor Modification approval on May 5, 2023, which authorized the acceptance of an additional 65,000 cubic yards, or 123,500 tons, of grading and shaping material at the Landfill in order to achieve the final approved grades.

In October 2022, test pits were performed to further define the extents of landfilled waste at the site. A proposed limit of final cap (modified based on the re-defined limit of waste) was presented to the MassDEP as part of the "Test Pit Summary Report" submitted on November 15, 2022 (Auth. # SW45-0000182). CEC submitted a major permit modification application in May 2023 which incorporated the modified limit of final cap and presented modifications to the grading and stormwater management system from the permitted Corrective Action Design. The MassDEP issued the BWP SW 11AC – Major Modification permit approval (Modifications to Corrective Action Design Permit #X283688 - Authorization No. SW11AC-0000030) on October 20, 2023, which authorized the facility to accept a total of 1,434,500 tons (755,000 cubic yards) of grading and shaping materials to achieve the modified final grades presented in the application.

Please do not hesitate to contact the undersigned below with any questions or comments regarding the content of this submittal.

Sincerely,

CIVIL & ENVIRONMENTAL CONSULTANTS, INC.

Kyle F. Hampton
