RE: Abatement

42 Spruce Street
Winchendon, MA 01475

Dear Mr. Hickey and Board,

According to [redacted] of 42 Spruce Street, Winchendon, a leak was found at 42 Spruce Street on January 12, 2020. [redacted] stated the repair to the leak was done on January 13, 2020.

Our records indicate that Billing Period was from January 2 to April 15, 2020. Therefore, the leak [redacted] is referring to occurred for only 10 days during that Billing Period. For that reason, [redacted] Sewer abatement amount is based on those 10 days.

Because [redacted] lived in the residence between February 2 and April 15, 2020, she will be receiving \$100.00 off the Sewer only portion of her bill.

Also, during the Billing Period from October 2, 2019 to January 2, 2020, the property was vacant. Therefore, I suggest an additional Sewer rebate of \$349.39. This would result in an Abatement total of \$449.39.

Respectfully,

Albert Gallant
Director, DPW
Town of Winchendon
