Subject: Request to be on BOS July 13 agenda

Hello Linda, Keith

Dave and I would like the opportunity to address the BOS at their July 13th meeting on behalf of the Winchendon Community Park Committee.

The purpose is to recommend and seek their approval for a restructuring of the WCPC - from one committee into two - an Infrastructure Committee and a Community Programming (usage) Committee.

This recommendation and the resulting proposal for each committee has been approved by the entire WCPC.

We have a document that details this recommendation and its rationale- and are in the process of finalizing it for the BOS. If we can be on the agenda, would you let us know the deadline for the BOS information packet. We expect that you'll have this document shortly, but it's always helpful to have a deadline to work towards.

We anticipate that this won't require a lot of meeting time .. and we'll see.

Thank you,

Jane and Dave
