March 21, 2018

Dear Select Board Members,

Unfortunately, due to the continuing winter weather, I'm respectfully requesting an additional \$30,000 in hopes this makes it until the end of the winter weather.

Although it may be hard to believe, our crew has been out to sand and/or plow 85 events this winter season compared to last year, we had a total of 57 events. To date, we have purchased 1,791.7 tons of salt at a cost of \$141,470.64, 3,614 tons of sand at a cost of \$41,152.49, and \$18,678.08 for vehicle fuel. A few of the larger snow and ice purchases have been a sander for \$16,700 and 2 plows costing \$12,706.60. The snow and ice expenses total to date is \$280,139.47. Snow and Ice payroll expended to date is \$76,562.10.

Thank you for your consideration of my request. I'd be happy to answer any questions you may have pertaining to this matter.

Sincerely,

Albert G. Gallant,
Public Works Director
