12/20/2023

To: Residents of Town of Winchendon

From: Brian Croteau

Date 12/20/2023

Subject: Sanitary Sewer Overflow.

To whom it may concern,

On Monday December 18<sup>th</sup> the Town of Winchendon experienced heavy rain fall which caused our sewer system to be at full capacity. As a result of this a partial back up from root intrusion in the sewer main that runs from Front St to River St cross country over flowed. The root intrusion was cleared and the system is now operating normally. The following agencies were notified: DEP, EPA and the Winchendon Board of Health.

Thank You

Brian Croteau

Director of Public Works
