

December 15, 2022

James A. McQuade, Section Chief
Solid Waste Management Program
MassDEP Central Regional Office
8 New Bond Street
Worcester, Massachusetts 01606

Subject: Monthly Reporting – November 2022
Permit No. X283688
Former Mabardy Landfill
River Street in Winchendon, Massachusetts
CEC Project No: 306-000

Dear Mr. McQuade:

Civil & Environmental Consultants, Inc. (CEC) presents this letter to fulfill the monthly reporting and recordkeeping requirements at the above referenced landfill (hereby referred to as the “Site”). This submittal was prepared in accordance with Section E of the Specific Permit Conditions as described in the Permit Number X283688 (CAD permit approval) in order to document tonnage received in the past month and any operational problems or deficiencies encountered in the Project.

1.0 MATERIAL ACCEPTED

W.L. French began to import approved soils for shaping and grading at the Site on January 19, 2021 in accordance with the CAD permit approval issued on September 23, 2020. A summary table showing the tonnage of material accepted at the Landfill over the previous month and cumulative yardage and tonnage of material accepted is provided with this letter. A total of 788,500 tons are permitted for the facility. As presented in the attached summary, 34,051.56 tons (17,921.87 cubic yards) was received by the facility in November 2022 which results in 136,412.87 tons (71,796.25 cubic yards) remaining.

2.0 OPERATIONAL MODIFICATIONS

During the initial test pitting within the northern permitted stormwater basin footprint, groundwater elevations were detected at higher elevations than the bottom elevation of the permitted basin. Therefore, a stormwater basin redesign will be required to allow the stormwater management system to function as originally intended. A temporary basin was installed in the same general vicinity and a permanent stormwater redesign was prepared and submitted to MassDEP under a Major Permit Modification (BWP SW 11) on September 6, 2022. The

permanent stormwater basin design was approved for an amended Order of Conditions by the Winchendon Conservation Commission at a public hearing on June 9, 2022.

A Test Pit Summary Report was issued to MassDEP on November 15, 2022 following the test pit investigation performed by CEC personnel on October 17th and 19th, 2022 (Auth. # SW45-0000182). The goal of the investigation was to identify the extent of any demolition waste debris beyond the approved final closure limit. Twelve test pits were excavated and observed by CEC personnel that were approximately 6 feet x 12 feet and advanced to a maximum depth of 18 feet. Debris was observed in test pits that included brick, asphalt, concrete, and auto batteries. The Test Pit Summary Report provided a 'Proposed Limit of Final Cap' and is the intent of CEC to produce a revised cap design that encompasses the results of the observations of the October test pit investigation for submittal to MassDEP.

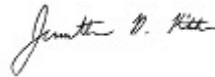

Please do not hesitate to contact either of us with any questions or comments regarding the work performed.

Sincerely,

CIVIL & ENVIRONMENTAL CONSULTANTS, INC.

Michael P. Avila
